Proposal

After having carried out an investigation on the motivations to compose new quality crews with unselected rowers and ascertained their willingness to try new solutions. I propose to the SRF Board the composition of the following M2x crew with Bedjik Aleksandar – Pivac Viktor

They will start the preparation shortly under the guidance of a Serbian coach appointed by the Board SRF, better with the acceptance of two rowers.

The test race for this crew is the European Championships in Varese the 9-11 April 2021.

This is what was required as my support in this selective process in which I participated without any financial involvement out of a duty of fairness towards the participants.

Sincerely

The Technical Consultant of SRF

Gianni Postiglione
